# Testimonials

If you want to work with trainers who are comprehensive in approach and highly skilled, Two Bears is my recommendation :)

**Aimee Sadler**

John and Diann are some of the most intuitive dog trainers I've yet to meet. Plus they are really FUN people!

## **"Tripp"**

### **Starfleet's Good Adventure UD AX AXJ**

John and Diann have taught me, to teach Tripp to be stable. Things still startle him at times but now, instead of running from the area, he looks to me for guidance. John and Diann have a unique way of training dogs and people and I highly recommend them as trainers. I will be bringing all my future puppies to Two Bears for training.

Two Bears dog training has been an eye opening experience for me regarding communication with my dog. I began training with John and Diann when I got a new Belgian Malinois puppy, and wanted to start this young dog with trainers who actually understood dogs and how to train. Having trained and competed with dogs for two decades and have had the opportunity to work with many different styles of dog trainers, nothing has compared to the broad understanding John and Diann bring to their teaching.

I highly recommend Two Bears for anyone wanting to form an intelligent bond with their dog.

## **"Marieke"**

We started with John about a year ago. What he have today is a dog that is so obedient on the trail that we are getting close to not needing any collar.

It all seems so amazing to us... where we are today having a blast with our dog in the outdoors... compared to where we were before John showed us how to train our dog, that we wanted to share this story with all those who might find themselves in similar situation.
